*Welcome to the 2024 CompassIntel Tech Awards, honoring companies and vendors in mobile, IoT, emerging technology, and automation.*

IoT & Connected Awards

Award Area	Award Category	Award Description
IoT & M2M	Connected Building: Smart Lighting	Smart Lighting: Top company or product in intelligent and smart lighting for commercial buildings and smart cities.
IoT & M2M	Connected Building: Smart Development and Design	Intelligent Design: Top company or product in real estate design and development enabling and using smart technology, sensor systems, and innovative building experi...
IoT & M2M	Connected Building: Commercial Product Innovation	Intelligent Building Products: Top product innovation in the intelligent building sector.
IoT & M2M	Connected Solution Leadership: Fleet Management Tracking	Connected Solution Leadership: Fleet Management Tracking - Leader and innovator in fleet management and tracking leveraging IoT technology and solutions.
IoT & M2M	Connected Solution Leadership: Asset Tracking	Connected Solution Leadership: Asset Tracking - Leader and innovator in location-based tracking of general assets, products, and goods leveraging IoT technology and solutions.
IoT & M2M	Top IoT Standards Body of the Year	IoT Organization/Association: This non-profit or organization was selected as the top recognized IoT organization focused on IoT standards, specification development, testing, etc.
IoT & M2M	IoT Data: Edge Computing Company of the Year	IoT Data/Edge: Product Innovation and superior solution for enabling edge computing for companies deploying connected solutions. Top company and product.
IoT & M2M	IoT Data: Data Analytics and Software Company of the Year	IoT Data Analytics: Best in class software or application for enabling data storage, analytics, and actionable solutions for predictive maintenance, anomaly detection, and event-driven activities.
IoT & M2M	IoT Vehicle Telematics Company of the Year	Vehicle/Car Telematics: Vehicle telematics solution provider including Buy Here Pay Here, Vehicle Tracking, Diagnostics, and Other services
IoT & M2M	IoT App Dev / Platform of the Year for the Enterprise Market	IoT App Development / Platform of the Year for the Enterprise Market: Best IoT app development / platform in the IoT market.
IoT & M2M	IoT Emerging Company of the Year for the Consumer Market	IoT Emerging Company of the Year for the Consumer Market: Hot company that is emerging as a key competitor in the consumer IoT market.
IoT & M2M	IoT Emerging Company of the Year for the Enterprise Market	IoT Emerging Company of the Year for the Enterprise Market: Hot company that is emerging as a key competitor in the IoT market enabling businesses of all sizes to adopt, implement, and manage connected solutions in the business or workplace.
IoT & M2M	IoT Enablement Company of the Year for the Enterprise Market	IoT Enablement Company of the Year for the Enterprise Market: A key partner in the cellular ecosystem that helped enable IoT solutions with various enterprise industries.
IoT & M2M	IoT Security Platform of the Year	IoT Security Platform of the Year: Best security platform in securing IoT solutions.
IoT & M2M	IoT Semiconductor Company of the Year	IoT Semiconductor Company of the Year: Best semiconductor company that has advanced IoT this year.
IoT & M2M	IoT Sensor Company of the Year	IoT Sensor Company of the Year: The best sensor company that has advanced the IoT market this year.
IoT & M2M	Industrial IoT Company of the Year	Industrial IoT Company of the Year: The best industrial company that advanced IoT in the industrial market.

Business Mobile & Tech Awards

Award Area	Award Category	Award Description
Business Mobile & Tech Awards	Workplace Device Innovation	Top workplace device used to enhance, improve or automate workplace activities. This device is an essential tool for workplace activities and offers an innovative feature or functionality for job performance, communications or activities.
Business Mobile & Tech Awards	Operations Automation	Top innovation utilizing software systems or applications used for business operations, processes, and internal job activities.
Business Mobile & Tech Awards	Mobile Customer Experience	Top technology or solution to immensely improve, enhance, offer ease, or automate the mobile/digital experience.
Business Mobile & Tech Awards	Enterprise Communications	Top business tool, application, or hardware that greatly enhances business operations, processes, and internal job communications.
Business Mobile & Tech Awards	Team Collaboration	Top collaborative solution, equipment/hardware, or software to promote team building, document sharing, team meetings, and other forms of collaborative work activities.
Business Mobile & Tech Awards	Augmented Reality	Leading business, government or industrial software or application supporting work operations and enablement through the use of augmented reality and experiences.
Business Mobile & Tech Awards	Mobile Equipment/Hardware Innovation	Innovative mobile hardware, equipment, or operational tools used to provide leading business and workplace experiences, including leading in features, functionality, and form factor.
Business Mobile & Tech Awards	Open RAN Innovation	Innovative open radio access network technology or solution leading the industry and providing unique services, capabilities, and solutions for network interoperability and virtualization.
Business Mobile & Tech Awards	Mobile Technology for Good	A company action, service, or benefit provided that also leverages mobile technology, services, products, or solutions to give back or improve the lives or resources for the planet or for people. This award is focused on philanthropy, sustainability, and education support.
Business Mobile & Tech Awards	Work from Home Product of the Year	Top cutting-edge or innovative product or solution that directly enhances the technology, tools, and resources for virtual offices or work from home.
Business Mobile & Tech Awards	5G Innovation Product	Top 5G enabled product, device, or hardware/equipment that offers unique, cutting edge capabilities, solutions, enhancements, and services.
Business Mobile & Tech Awards	5G Innovation Service	Top 5G enabled service or solution that offers unique, cutting edge capabilities, and enterprise or industrial services for work purposes.
Business Mobile & Tech Awards	AV Innovation	Top audio visual hardware, equipment, device, or solution enhancing the overall user experience through sound, experiences, features, functionality, and capabilities.
Business Mobile & Tech Awards	Enterprise Solution of the Year	Top enterprise solution improving the overall worker user experience through technology innovation, new user experiences, improved capabilities, automation, and workplace job enhancements.

Emerging Technology

Award Area	Award Category	Award Description
Emerging Technology	Machine Vision Technology	Top company who is providing leadership and advancing machine vision technology and providing innovative solutions to enable applications, operations, transportation, customer services, and other core applications.
Emerging Technology	AI Chatbot	Top company who is enabling artificial intelligence through innovative chatbot technology, design, and solutions for end-users, businesses, workers, and people in general.
Emerging Technology	Artificial Intelligence: Enterprise Solution	Top company who is enabling businesses or enterprise companies through an innovative B2B or enterprise solution or product using artificial intelligence.
Emerging Technology	Natural Language Processing	Top NLP solution or service elevating speech recognition and processing including products, technologies, and solutions to advance processes, operations, logistics, services, systems, etc.
Emerging Technology	Autonomous Systems	Top product or solution utilizing autonomous technology for systems improvement, operational enhancements, logistics support, and/or providing improved delivery or transport improving the customer experience.
Emerging Technology	Sustainability Innovation	Top solution or technology providing leading edge sustainability, green tech, and clean energy capabilities and services, or that supports ESG and SDG initiatives or to meet company sustainability goals.
Emerging Technology	Digital Twin Innovation	Top technology, software, or solution leading in the use of digital twin technology to improve operations, automate work or business activities, meet industry requirements, or solve real-world business problems.
Emerging Technology	Intelligent Data & Analytics	Top company providing a unique and differentiated data analytics software or applications to take data and make it more intelligent by automating actions or alerting information to improve operations or perform a specific job task.
Emerging Technology	Physical Digital Experience	Top leading edge solution, product, or service taking the best of the physical experience and utilizing the digital experience to improve, enhance, provide unique experiences, and/or offer new ways of doing work, play, or gaming.
