

Business IP Subscription

Subscription Description: This subscription service explores business use of IP services, including broadband, T1 and T3 services, OC-X, dial-up Internet and integrated access (both TDM and IP voice-based). This service also explores IP-based services such as IP-VPN services and VoIP. Clients can expect to receive regular updates on the competitive environment, analysis of provider strategies, business preferences and requirements, market forecasts, subscription forecasts and commentary on relevant market events. Market data and insights are provided for the entire US Business market, with some Size of Business detail for market forecasts. Clients seeking additional Size of Business or vertical industry detail can receive it by purchasing additional "Directional Add-on" subscriptions to Business IP.

PRICE: US \$20,000 for 12-month Corporate-wide Access
