

Business Managed & Hosted Services Subscription

Subscription Description: This subscription service includes market intelligence, forecasts, and trending analysis on business managed & hosting services expenditures by size of business. Managed services include expenditures on network-based services that provide a network, application or computing capability to a client and are delivered on an on-going basis by a 3rd party for a recurring fee. Primary topics include managed voice and data, managed mobility, web and network hosting, and other managed and hosted services.

PRICE: US \$20,000 for 12-month Corporate-wide Access
