

## 2018 CompassIntel Awards

### IoT Awards

Award Area	Award Category	Award Description
A-List in IoT & M2M	Connected Building: Smart Lighting	Top company or product in intelligent and smart lighting for commercial buildings and smart cities.
A-List in IoT & M2M	Connected Building: Smart Development and Design	Top company or product in real estate design and development enabling and using smart technology, sensor systems, and innovative building experiences.
A-List in IoT & M2M	Connected Building: Commercial Product Innovation	Top product innovation in the intelligent building sector.
A-List in IoT & M2M	Connected Solution Leadership: Fleet Management Tracking	Connected Solution Leadership: Fleet Management Tracking - Leader and innovator in fleet management and tracking leveraging IoT technology and solutions.
A-List in IoT & M2M	Connected Solution Leadership: Asset Tracking	Connected Solution Leadership: Asset Tracking - Leader and innovator in location-based tracking of general assets, products, and goods leveraging IoT technology and solutions.
A-List in IoT & M2M	Connected Health & Wellness Product of the Year	Connected Consumer Wellness Product of the Year - Best consumer health/wellness product/solution for the year.
A-List in IoT & M2M	Connected Home Technology of the Year	Connected Home Company of the Year - Best company transforming the connected home market this year.
A-List in IoT & M2M	Connected Home Innovator of the Year	Connected Home Product of the Year - Best connected device / product used in the connected home.

A-List in IoT & M2M	Connected Solution: Building & Energy Automation	Connected Solution: Building & Energy Automation - Best in class and innovation in building automation, energy management, and sustainable building advancements.
A-List in IoT & M2M	Connected Solution: Supply Chain Automation	Connected Solution: Supply Chain Automation - Best in class and innovation in supply chain and service automation.
A-List in IoT & M2M	Top IoT Standards Body of the Year	This non-profit or organization was selected as the top recognized IoT organization focused on IoT standards, specification development, testing, etc.
A-List in IoT & M2M	IoT Data: Edge Computing Company of the Year	Product Innovation and superior solution for enabling edge computing for companies deploying connected solutions. Top company and product.
A-List in IoT & M2M	IoT Data: Data Analytics and Software Company of the Year	Best in class software or application for enabling data storage, analytics, and actionable solutions for predictive maintenance, anomaly detection, and event-driven activities.
A-List in IoT & M2M	IoT Vehicle Telematics Company of the Year	Vehicle telematics solution provider including Buy Here Pay Here, Vehicle Tracking, Diagnostics, and Other services
A-List in IoT & M2M	IoT App Dev / Platform of the Year for the Enterprise Market	IoT App Development / Platform of the Year for the Enterprise Market - Best IoT app development / platform in the IoT market.
A-List in IoT & M2M	IoT Emerging Company of the Year for the Consumer Market	IoT Emerging Company of the Year for the Consumer Market - Hot small company that is emerging as a key competitor in the consumer IoT market.
A-List in IoT & M2M	IoT Emerging Company of the Year for the Enterprise Market	IoT Emerging Company of the Year for the Enterprise Market - Hot company that is emerging as a key competitor in the IoT market.
A-List in IoT & M2M	IoT Enablement Company of the Year for the Enterprise Market	IoT Enablement Company of the Year for the Enterprise Market - A key partner in the cellular ecosystem that helped enable IoT solutions with various enterprise industries.
A-List in IoT & M2M	IoT Security Platform of the Year	IoT Security Platform of the Year - Best security platform in securing IoT solutions.
A-List in IoT & M2M	IoT Semiconductor Company of the Year	IoT Semiconductor Company of the Year - Best semiconductor company that has advanced IoT this year.
A-List in IoT & M2M	IoT Sensor Company of the Year	IoT Sensor Company of the Year - The Best sensor company that has advanced the IoT market this year.
A-List in IoT & M2M	Industrial IoT Company of the Year	Industrial IoT Company of the Year - The best industrial company that advanced IoT in the industrial market.
A-List in IoT & M2M	Top IoT Service Provider of the Year	IoT Service Provider of the Year - The top carrier, connectivity or service provider that services to scale and provide robust connectivity options for the market.

## Mobile & Wireless Awards

Award Area	Award Sub-Category	Award Description
Mobile & Wireless	Top B2B Smartphone Device	Top Business-to-Business Cellular Phone with mobile operating system
Mobile & Wireless	Top B2B Wearable Device	Top enterprise or B2B wearable device including wrist-worn, body-worn, goggles, etc.
Mobile & Wireless	Top B2B Workplace Device	Includes top selected and preferred tablet or laptop for use in business or government
Mobile & Wireless	B2B Application: Internal Operations	Software systems used for business operations, processes, and internal job activities.
Mobile & Wireless	B2B Application: Client Facing	Software systems used for B2B client activities including sales, CRM, customer service, etc.
Mobile & Wireless	B2B Application: Enterprise Chat/Messaging	Software systems and services to promote enterprise chat, messaging, and communications
Mobile & Wireless	B2B Application: Team Collaboration and Team Building	Software systems and services to promote team building, document sharing, team meetings, and other forms of work activities
Mobile & Wireless	B2B Application: Augmented Reality	Business, Government or Industrial software or application supporting business operations and enablement through the use of augmented reality and experiences
Mobile & Wireless	B2B Mobile Application: Workplace Productivity	Software systems or services to enable mobile workplace productivity in day to day operations and business services.
Mobile & Wireless	Mobile Device Management (MDM, EMM)	Mobile Device Management (MDM) and Enterprise Mobility Management (EMM) - Software to manage the mobile devices used in the enterprise network; includes management console
Mobile & Wireless	Top B2B Cable Operator	Top Business-to-Business cable operator providing SMB and enterprise telecom and IT services
Mobile & Wireless	Top B2B VoIP Service Provider	Top Business-to-Business VoIP services provider
Mobile & Wireless	Top B2B Wireless Provider	Top Business-to-Business wireless service provider providing SMB and enterprise telecom, wireless, and IT services
Mobile & Wireless	Top B2B Wireline Provider	Top Business-to-Business wireline service operator providing SMB and enterprise telecom and wireline services
Mobile & Wireless	Top B2B Robotics Vendor	Top vendor or company providing robotics solutions and technology to enterprise and government

Mobile & Wireless	Top B2B Small and Mid-sized Business Provider	Top Business-to-Business overall carrier or provider to the SMB market. SMB or small and mid-sized businesses included businesses with 5 to 999 employees.
Mobile & Wireless	Top Innovation in AI: Product or Collaboration	Top innovation specific to artificial intelligence products, services or efforts to improve scale, adoption, and open standards.
Mobile & Wireless	Top Product Portfolio in AI Services	Top innovative product portfolio specific to enabling artificial intelligence in networks, operations, and business services.
Mobile & Wireless	Mobile Device Tracking & Security Software	Mobile Device Tracking & Security Software - Systems that manage security on mobile devices including access and content (encryption)
Mobile & Wireless	Top Innovation in Biometrics	Biometrics - Use of biometrics to manage security (e.g. fingerprint, eye blood vessels, facial recognition, etc.)

## Bamboo Mobile Awards

Award Area	Award Sub-Category	Award Description
Bamboo Mobile Award	Consumer Mobile Recycling/Buyback Program (Online)	Consumer Mobile Recycling/Buyback Program (Online) - This company has the most successful execution/experience with consumer ONLINE mobile device buyback & recycling.
Bamboo Mobile Award	Consumer Mobile Recycling/Buyback Program (In-store)	Consumer Mobile Recycling/Buyback Program (In-store) - This company has the most successful execution/experience w/consumer IN- STORE mobile device buyback & recycling.
Bamboo Mobile Award	Business Mobile Recycling/Buyback Program (Overall)	Business Mobile Recycling/Buyback Program (Overall) - This company has the most successful execution/experience with BUSINESS mobile device buyback and recycling.
Bamboo Mobile Award	Recycling/Reclamation Innovation & Support Vendor	Recycling/Reclamation Support Vendor - This company has the most successful execution/experience as a SUPPORT VENDOR for mobile device buyback and recycling.
Bamboo Mobile Award	Eco/Green Product Design	Eco/Green Product Design - This company has the most innovate and advanced green DESIGNED product in the mobility space this year.
Bamboo Mobile Award	Sustainable Mobile Network Technology	Sustainable Mobile Network Technology - This company develops and implements the most sustainable or green technology in terms of reduced energy used and innovation.
Bamboo Mobile Award	Eco/Green Innovator	Eco/Green Innovator - This company OVERALL has a uniquely eco-friendly approach to its business and is consider an innovator in this area.
Bamboo Mobile Award	Most Eco-Focused Carrier	Most Eco-Focused Carrier - This mobile phone CARRIER has the most focus, emphasis and has a proven track record in sustainability.

## Compass Intelligence "Of the Year" Selections

Award Area	Award Sub-Category	Award Description
CompassIntel Award	Government Cloud Advancement and Leadership of the Year	This company is making advancements in supporting the federal government push to the cloud including the certification and adherence to FedRAMP, as well as leading in government cloud-first services.
CompassIntel Award	5G Infrastructure Company of the Year	5G technology is expected to revolutionize core applications in business, government, and consumer and help provide the scale and advancement in IoT that is needed. This company is providing advanced technology and engineering to support 5G infrastructure products, networking, and hardware for carriers and network operators.
CompassIntel Award	Enterprise Wireless Network Innovation Product of the Year	This in-door wireless network product has made major advancements and contributed to improving data coverage and data transmission speeds to support businesses and government. This product has boosted wireless performance in hard to reach or challenged coverage areas within buildings or structures.
CompassIntel Award	Enterprise Preparedness Product of the Year	This product offers innovative solutions to support the enterprise in disaster awareness, preparedness, and emergency planning, as well as offers enterprise software applications and visibility into response and management.
CompassIntel Award	New Product Innovation in IoT	This product was announced in the last 12 months and is presenting new and innovative technologies and services to the enterprise and government sectors connecting devices and sensor networks. This product or service is expected to help advance adoption and provide scale.
